I plan to transfer after I earn my Associates Degree to California State University, Northridge to earn my Bachelor's Degree in Child Development."

"I wanted to finish my high school diploma so I could look at my children and tell them that I place the utmost emphasis on education. Second to prove to myself that I could do it and third so that I could pursue my dreams of applying for my commission as an officer in the United States Navy. I would like to thank my academic coach for all her support...I feel like I couldn't have accomplished this without her."

— **Richard Derflinger, graduate**  
San Diego Public Library

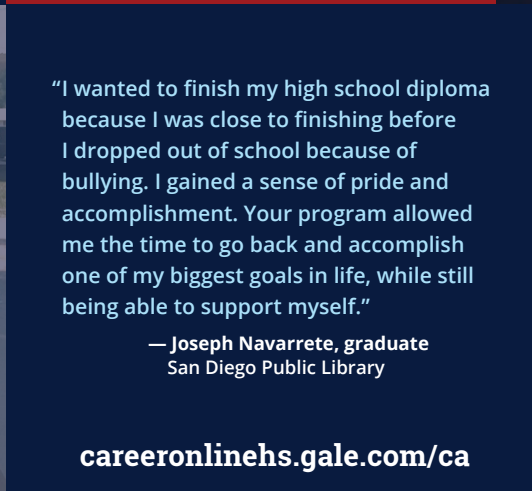

"This experience was more than what I expected. The staff was so encouraging when I wanted to give up. I would get a call from someone that kept me going in my spirit even when my body and mind were tired. Please continue to enrich others like myself that have been downtrodden by society, to strive for the satisfaction of academic accomplishment. Thank you, from me and my son."

— **Rosalia Cowings, graduate**

"I gained a lot from this program like how to deal with people in everyday life situations. I learned about office management, something that I didn't know. I want to go to college now to be a medical assistant. It is a great program."

— **Jakeia Cooper, graduate**

"I wanted to finish my high school diploma because I was close to finishing before I dropped out of school because of bullying. I gained a sense of pride and accomplishment. Your program allowed me the time to go back and accomplish one of my biggest goals in life, while still being able to support myself."
